

Text of the Amendment

The above numbered solicitation is amended as specified below.

1. Remove page 4 of Section B Supplies or Services Prices/Cost and substitute the attached page 4. This amendment deletes Paragraph C.5.26 Physical Security from the Performance Work Statement.
2. Remove page 6 of the Performance Work Statement and substitute the attached page 6. The amendments deletes paragraph C.1.2.6 PHYSICAL SECURITY PROGRAM.
3. Remove page 14 of the Performance Work Statement and substitute the attached page 14. This amendment adds paragraph C.1.10.12 which reads as follows:

“Contractors shall establish and maintain the capability to respond to all on-site Chemical Accident/
Incident Response and Assistance (CAIRA) exercises, actual events and to natural or man-made disasters which might impact normal facility operations. The COBRATF Director will provide necessary guidance for response to these events. Contractor responsibilities will be detailed in COBRATF operating procedures and disaster management plans to include, but not limited to, manning the Emergency Action Center, establishing and operating an emergency decontamination line and establishing disaster response teams.”

4. Remove page 111 of the statement of work and substitute the attached page 111. This amendment deletes paragraph C.5.21.6 The laboratory procedures pertaining to Red Blood Cell Cholinesterase testing analysis should not be conducted by the emergency medical staff (paramedics), but by the Medical Laboratory Technicians as specified in paragraph C.5.25.2.
In addition, paragraph C.5.21.8, page 111 is added and will read as follows:

“The contractor shall be responsible for maintenance and calibration of all medical equipment used at the COBRATF and SIBERT HALL .”

5. Remove pages 122 thru 127 of the Performance Work Statement and substitute the attached page 122. This amendment deletes paragraph C.5.26 Physical Security in the Performance Work Statement. Therefore, PHYSICAL SECURITY PARAGRAPH C.5.26 SECTION DOES NOT APPLY UNDER THIS SOLICITATION.
6. Based on anticipated budget authority for future fiscal years for the Center for Domestic Preparedness, the revised projected number of CDP Responders to participate in live agent training at the COBRA Training Facility are as follows:

<u>Calendar Year</u>	<u># Responders</u>
CY 2000	3,000
CY 2001	7,500
CY 2002	7,500
CY 2003	10,000
CY 2004	10,000

Offerors should base their budget on the requirements in the Performance Work Statement and the anticipated responders load. Also, offerors are reminded that they must include a summary cost breakdown sheet for each year of the contract and summary for all five years

7. The time and date for receipt of proposals remains FRIDAY, OCTOBER 15, 1999 AT 3:00 PM Eastern Daylight Standard Time.

Admendment A-001

B.2 Cost reimbursed under this contract shall in no event exceed the current contract value without the prior written approval of the Contracting Officer.

PLEASE NOTE THE FOLLOWING:

6. SECTION J-List of Attachments
7. SECTION K-Certain portions need to be filled out.
8. SECTION L-Instructions for filling out technical proposal, restrictions, submissions, etc.
9. SECTION M-Evaluation Factors for Award
10. The Standard Industrial Classification (SIC) Code for this procurement is 8744.
- 11. A site visit will be conducted on Tuesday, September 21, 1999 at 10:00 a.m.**
12. Questions concerning the statement of work should be submitted in writing by Friday, September 24, 1999 by 3:00 pm to the following address:

Eldred Jackson
Office of Justice Programs
Acquisition Management Division
810 Seventh Street, N.W.
Washington, D.C. 20531

Information pertaining to this solicitation may be obtained by contacting Eldred L. Jackson, Contracting Officer on (202) 514-0696.

The technical proposal shall not exceed 100 pages.

be taken during failure of essential equipment and major utility services. The written procedures shall include a call system for summoning essential personnel and outside assistance when necessary to meet requirements specified elsewhere in these specifications. Procedures shall be submitted to the Contracting Officer within 10 days of start of the contract, and within 24 hours of any changes after the 10 day reporting period of the contract.

C.1.2.3 Reports and correspondence. The contractor shall prepare reports and correspondence including special reports for applicable functions limited to his operation in accordance with Sections C.1.6, Control of Work;

C.1.2.3.1 Reports and Records; and C.1.11, Reports by Contractor, and where referenced in this document.

C.1.2.4 Warranties. Upon award of contract, the operation and maintenance contractor (O&M) shall be responsible for keeping records of all warranty information. During the warranty period, the O&M contractor shall be responsible for routine maintenance on the facility. In the event the O&M contractor ascertains that the repairs fall within the warranty, he shall in writing, notify the Contracting Officer. For all items purchased under this contract, the O&M contractor shall maintain warranty records indicating the effective period of the warranty. Records shall be available for Government use at all times.

C.1.2.5 Preventive Maintenance Program. The O&M contractor shall develop a comprehensive preventive maintenance program to be submitted with offer and up dated as required. The O&M contractor shall be responsible for routine servicing of equipment as required by the manufacturer. Included in the Preventive Maintenance Program shall be a lubrication schedule. The contractor shall determine standard oils and greases which will be compatible with equipment manufacturer's recommendations. Oils and grease application frequencies will be in writing for each applicable piece of equipment.

C.1.2.6 Reserved

Admendment A-001

C.1.10.5 The training building mezzanine is to be used primarily as a servicing Area, not a

storage area.

C.1.10.6 Toxic chemical agents are stored in a vault in the training building.

C.1.10.7 Various monitoring stations are provided in the training building between "hot" and "cold" area interfaces.

C.1.10.8 Training building "hot" areas are maintained under negative pressure.

C.1.10.9 Leak resistant doors and electrical interlocks are provided between "hot" and "cold" areas in the training building. The O&M contractor shall maintain the leak resistant doors. The O&M contractor shall inspect them annually.

C.1.10.10 Operations of the facility involve toxic chemical agents GB & VX. Maintenance personnel must be trained in various aspects of working in this type environment. Maximum permissible limits of hazardous chemical agents GB in an unprotected environment over an 8hour period are, GB 0.0001 mg/CuM. and VX 0.00001 mg/Cu.M.

C.1.10.11 Operations of the facility will follow the guidance specified in the COBRATF Standards Document and subsequent plans and SOPs.

C.1.10.12 Contractor shall establish and maintain the capability to respond to all on-site Chemical Accident/Incident Response and Assistance (CAIRA) exercises, actual events and to natural or man-made disasters which might impact normal facility operations. The COBRATF Director will provide necessary guidance for response to these events. Contractor responsibilities will be detailed in COBRATF operating procedures and disaster management plans to include, but not limited to, manning the Emergency Action Center, establishing and operating an emergency decontamination line and establishing disaster response teams.

C.1.11 REPORTS BY CONTRACTOR

C.1.11.1 The contractor shall operate an administrative function, at the facility and shall maintain the following administrative type data at the COBRATF, and shall be made available upon request to the Contracting Officer:

C.1.11.1.1 Records of safety inspections.

C.1.11.1.2 Incident reports.

C.5.21.6 Reserved

C 5.21.7 The Director, COBRATF, is responsible for providing and maintaining a full line of

blood collecting supplies. The contractor is responsible for providing expendable medical supplies, emergency medical supplies and all required drugs.

C.5.21.8 The contractor shall be responsible for maintenance and calibration of all medical equipment used at the COBRATF and SIEBERT HALL

C.5.25.9.5 Performs routine RBC-ChE testing.

C.5.25.9.6 Maintains appropriate laboratory records.

C.5.25.9.7 Provides appropriate distribution of test results.

C.5.25.9.8 Monitors results that suggest exposure and evaluates the data in relation to the test system and assay procedure. Performs further specialized testing when necessary.

C.5.25.9.9 Prepares specimens for shipping to USACHPPM reference laboratory in accordance with mailing regulations to prevent delay in specimen arrival.

C.5.25.10 Additional requirements for the position of Lab Director / Clinical Consultant physician shall include but not be limited to:

C.5.25.10.1 Medically clears students to train at the COBRATF when the decision cannot be determined by the on-site Occupational Health Nurse (OHN).

C.5.25.10.2 Approves and co-signs with on-site OHN all Standards Operating Procedures and program documents.

C.5.25.10.3 Co-signs physical examinations conducted by the on-site OHN on civil service employees.

C.5.25.10.4 Purchase drug supplies for utilization by on-site paramedics.

C.5.25.10.5 Verify contaminated patients are fully decontaminated prior to transport for medical treatment.

C.5.26 Reserved.
